

# Student Profile for College Admissions and Scholarships

**Note to students:** For private college admission and scholarship recommendations, please give this completed form and attached statements to your counselor **by the end of October**. Make a copy of this Student Profile for your own records. For letters of recommendation, it is important to provide your teachers with addressed, stamped, envelope(s). **Omit** a return address. **\*\*For your counselor, be sure to use two stamps** on each envelope, as we need to include a number of forms with our mailings.

**\*\*Senior Recommendations:** Please note that colleges read and reread your essay and our recommendations. As your counselor, we try our best to write the most complete letter on your behalf. The more thorough you are in completing this form, the more information we will have in writing your recommendation. **Please take the time and effort to complete this profile and your personal statement.**

Please remember to write **thank you notes** to the people who take the time to write your recommendations. A little note goes a long way.....

Which teachers did you ask to complete a Teacher Comment Form and/or write a letter of recommendation?

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

In an effort to write the best possible letter of recommendation on your behalf, we are interested in learning about YOU. Don't mistake this portion by making a list of your accomplishments; instead, please reflect on these questions and share your original thoughts, experiences, and beliefs that help us to learn what sets you apart from others. **Please type your answers on an attached sheet and staple to the above Student Profile.**

Please list five (5) adjectives that best describe you and provide an example for one of them.

**Please respond to at least one of the following three prompts.**

1. During your high school career, what do you consider your proudest accomplishment? Please give examples. We are interested in learning the process that helped you achieve your goal and how you may have grown/changed from this experience.
2. Are there any special circumstances, living situations, challenges, etc. in your life that has had an impact on your education? Please share how you confronted and overcame your challenges. We are interested in finding out what you have learned or achieved in spite of these circumstances.
3. Sometimes, even the seemingly insignificant moments provide us the opportunity to reflect on and re-evaluate our values, beliefs, and attitudes. Please reflect on a defining moment that affected your personal growth and/or challenged your perspective.
